Data Needs for the Eastern LIS SEIS screening and EIS preparation 1 15 13.pdf

Pay particular attention to the attachment,
This is the data needs sheet sent out by me to the cooperating agencies on 1/10.
I have reminded NYDOS that they had promised to provide information and as of last week, they did not provide anything but would get it ASAP

Hi Lynne,

Based on our discussion on the ferry, you told me that you cannot use the dbase provided by Mike Keegan in addition to the Literature report to complete a data gap analysis because you need the actual research documents so that you can further refine your assessment of the literature review report for the LIS DMMP which will feed into your data gap assessment.

You had also mentioned that you put together a revised dbase.. so you could tell me what papers/publications you would need.

Please let me know, so that I can arrange to get copies from Mike.
thanks

Attached is the list of data needs which Battelle agreed to compile based on the site screening and future EIS needs. This list should be shared with the agencies from Connecticut, New York, and Rhode Island. We included a comprehensive list and did not take into consideration some of the information already received, just in case someone can supply these in GIS layers rather than PDFs.

Sincerely,

Lynn McLeod, PMP
